

LECTRA®

Introducing
FocusQuantum® 3K
OPW

**HIGHER SPEED,
HIGHER ACCELERATION
AND 2 x 1.5KW
LASER SOURCES**

**DRIVING DOWN OPW
CUTTING COST PER
BAG BY UP TO 15%**

Launched in 2016 and deployed by major automotive airbag cushion suppliers worldwide, Lectra's ground-breaking FocusQuantum® OPW makes it possible to achieve quality nearing zero defects while lowering overall cost per bag. Thanks to Lectra's ongoing R&D efforts taking into account feedback from its customers, the **NEW FocusQuantum® OPW 3K** is engineered to deliver even more value to airbag manufacturers.

**FEATURING MAJOR HARDWARE
AND SOFTWARE IMPROVEMENTS
ENABLING BETWEEN 15% AND
20% PRODUCTIVITY INCREASES***

**NEW Dynamic Laser Trajectory
Management**

- Minimize stops and slow-downs with cut on-the-fly
- Increases the cutting ratio when two cutting heads working concurrently

Adapt laser cutting action to fabric distortions in real time with Lectra's exclusive **SmartCutting technology**

**BACKED BY LECTRA'S WORLDWIDE
NETWORK OF SUPPORT SERVICES**

As with all of Lectra's leading-edge laser airbag cutting solutions, the advanced-technology FocusQuantum® OPW 3K is backed by the expertise of a worldwide network of airbag business consultants and technical specialists.
